20-Year Future Vision

Ota, an international city
vividly active for the future
with power of local community
supporting residents' living
~from Ota City's Basic Concept~

Key Words: "Power of Local Community"
and "International City"

Aiming at Developing into an International City

- Reinstatement of Haneda International Airport is a good opportunity for City of Ota to promote tourism, local industries and town building.
- Ota's internationalization policy is to anticipate the future and develop policies related to issues generated by increase in number of foreign residents, not to fall behind them.
- Making policies aiming at developing an international city maximizes benefits and dissolves disadvantages.
